SUMMARY

Fullstack developer with proven expertise in React and Next.js, building scalable and high-performance web applications. Skilled in translating Figma designs into responsive UIs using TailwindCSS and Framer Motion, with a strong commitment to enhancing website speed and user experience. Experienced in Agile workflows, code reviews, and cross-team collaboration to deliver client-focused solutions that boost engagement and SEO rankings. I am a Fullstack Developer specializing in React and Next.js with a strong background in creating high-performance web applications. I have experience translating designs into user-friendly interfaces and collaborating effectively with cross-functional teams. Committed to continuous improvement, I strive to enhance website performance and optimize user experience through advanced technology and best practices.
